★ INDONESIA'S TRUSTED WOOD EXPORTER

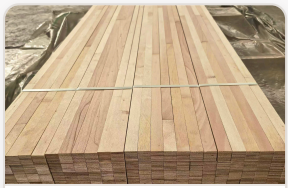
High-Grade LVL & Wood Products — Built to Spec

We manufacture LVL products, housing, and door components for the Japanese market, as well as balusters and wood mouldings for the U.S. market. Consistent quality, dependable delivery, and production tailored to your specifications.

✓ JAS Certified · ✓ SVLK Certified · ✓ US EPA Certified · ✓ F☆☆☆☆ Rating · ✓ CARB Certified · FSC Sourcing Option

Manufacturing Facility — Semarang, Central Java

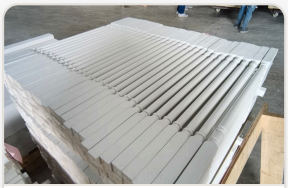
OUR PRODUCT PORTFOLIO — What We Manufacture



ENGINEERED WOOD

Housing/Construction

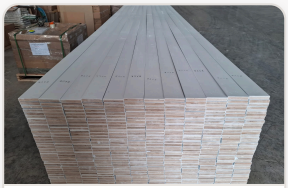
LVL frames, boards, and door components produced to consistent tolerances for housing and construction applications.



ARCHITECTURAL

Wood Balusters

Standard and custom baluster profiles in a range of sizes, grades, and surface finishes.



CUSTOM PROFILE

Wood Moulding

Produced to your drawing, finish, and size. Available in a range of species and surface finishes.

DOOR & WINDOW

Door Components

Door stiles, jambs, door frames, face frames, and mould wall profiles across a range of dimensions.

PALLET MFG

Pallet Components

LVL boards and components for pallet manufacturers. Custom dimensions and densities available.

White Primed (Gesso Coating) available on request for balusters & moulding — a specialist finish that few manufacturers offer.

KEY PROPERTIES — Why LVL?

Built for Structural Use
Parallel-laminated veneers orient all grain in the same direction — concentrating strength along the span and making LVL dependable in load-bearing applications.

Resistant to Movement
Resists warping, twisting, and cupping across humidity and temperature changes.

Flexible Sizing
Not restricted by log size or sheet format. Produced to a wide range of custom dimensions.

Consistent Surface
Fewer knots and less grain variation — easier to cut, route, paint, or finish.

Moisture Managed
Produced at controlled moisture levels for consistent performance in transit and end use.

Versatile to Work With
Cuts cleanly, holds fasteners reliably, and takes finishes well across a range of applications.

QUALITY CERTIFICATIONS — Industry Standards & Certifications

JAS Standard
Certified for Japanese Agricultural Standards

✓ CERTIFIED

SVLK
Verified for Indonesian timber legality

✓ CERTIFIED

US EPA TSCA Title VI
Certified for United States EPA
